NATIONAL FOSTER CARE MONTH

There are over 400,000 children in foster care in the United States on any given day. When we invest in our youth, we invest in the future of civilization, and we need to ensure we give them every opportunity possible. Foster care plays a critical role in providing young people who have had to be removed from their homes a critical place of refuge. It is an invaluable resource for keeping children safe in temporary circumstances and providing stability, direction, and comfort to our nation's most vulnerable sons and daughters. The foster care program has saved countless lives over the years through prevention, education, and fostering to provide the best circumstances possible for our youth.

To learn more about how you can become a foster parent, please contact the Franklin Department of Social Services @ (757) 562-8520.
